## BOYCOTT ENDED

Chinese Government  
Takes Prompt Steps  
in the Matter.

OYSTER BAY, Sept. 1.—China has placed the boycott of American products under the imperial ban. An edict has been issued by the Government commanding Viceroy and Governors of provinces to take measures for the suppression of the boycott and holding them strictly responsible.

The State Department at Washington has received a cablegram from Minister Rockhill giving a summary of the edict. The cablegram was forwarded immediately to the President. The text of the cablegram follows:

"Imperial edict published yesterday says that the long and deep friendship between the United States and China has never been tried as now. The United States Government has promised to revise treaty and people should peacefully await action of both Governments. Boycott wrong and harmful friendly relation. It (edict) commands Viceroy and Governors to take effective action, making them strictly responsible. Undoubtedly will have a good effect. Shanghai reported yesterday situation improving."

## WIFE DRIVEN TO SUICIDE

(Continued From Page 1)

time Mrs. Sullivan was crying gently to herself. She wanted to make up with him but he was cold and indifferent and frequently applied names to her which can't be repeated.

STRUCK HER.

"After one of her attempts to love him, he struck her in the face at the same time applied a vile name to her. He accused her of not being true to her marriage vows. The force of the blow knocked her to the floor.

"When she got up she was crying. Without saying a word she went to the bathroom. What she did there I do not know. When she came out of the bathroom she cried: 'I'm poisoned; I am poisoned.'"

"Oh, I guess you will be all right," replied Mr. Sullivan. His wife then threw her arms about her husband and madly loved him.

"She again repeated 'I am poisoned.' 'You had better calm yourself,'" Mr. Sullivan replied.

"Oh, my God, how my mouth burns," cried the young wife, suffering agonies from the burning of the fiery liquid. "She then went and got a piece of lard which she put in her mouth to ease the pain. It then insisted that Mr. Sullivan go for a doctor.

"I do not think that it is anything serious," he remarked, when he left for the doctor.

"In a few minutes Dr. Kelly arrived, but after a hasty examination of Mrs. Sullivan he said there was no hope. He did what he could. Mr. Sullivan then threw his arms around his wife and cried. This concluded the testimony of Miss Grau.

HUSBAND'S STORY.

The husband then took the stand and told the following story:

"When I came home Saturday night we had a quarrel. We went to bed on bad terms. When I got up the next morning I left the house and returned about noon. The cause of the trouble was that she threw my whisky out. I remonstrated with her mildly. The names I called her were used in a playful sense. I did not realize that she had taken the stuff seriously. I did not know that lysol was a deadly poison.

"If I had known I would have made a greater effort to save her life. I thought that she was fooling. I never realized until too late that she meant to take her life."

The jury which sat on the case was as follows: Louis Hager, William Pence, Charles Haven, Thomas Mullin, P. Laperle, George L. Geck and Charles Abbott.

Mrs. Sullivan before she was married was a Miss Bradford.

CHILD MARRIAGES IN INDIA.

More than 250,000 girls in India, 5 years of age or less, were already married when the last census was taken, and of these necessarily many have become widows. Between 5 and 10 years the number of married girls was well over 2,000,000, between 10 and 15 years it had risen to nearly 7,000,000. Of course, to the girls in the first two categories marriage meant nothing more than a contract entered into for them by others, long before they themselves were capable of understanding it; many of them had been bound by engagements when they were still children in arms; some had even been betrothed before they were born.

Most of the widows of such tender years become so before they know what widowhood means. It is only as they grow out of infancy that they learn the sad life to which they are condemned, a life of misery which is inconceivable to people of western countries. Yet is enforced by Hindu customs. It is a life of hardship, of unmerited shame, of irksome penances and of wearisome attendance at religious functions.

Though the English law in India would recognize the legality of a remarriage of these youthful widows, the custom forbids it and its occurrence is rare. There were in India in 1901 nearly 426,000 widows under 15 years of age, of whom nearly 20,000 were less than 5 years old.

Did you ever notice that the man who wins at the game who wins at the game? What man had done woman thinks she can do better.

of by the 'Coroner, who will hold an inquest.

SAN DIEGO, September 1.—The course for the yacht race today for the Lipton cup was three miles to windward and back repeated, making the distance twelve miles. The yachts made a good start. Detroit and Butcher Boy crossing the line together at 1 o'clock sharp. The chief crossed at 1:01. Venus at 1:03 and Nacker at 1:03. On the beat windward the Detroit secured a lead over the Butcher Boy of nearly half a mile, rounding the outward buoy at 1:38 p. m. A brisk northwest wind gave rise of a good speed trial in the race.

## CITY FIREMAN IN DISGRACE

EMPLOYEE OF ALAMEDA DIS-  
CHARGED FOR APPEARING FOR  
WORK INTOXICATED.

ALAMEDA, Sept. 1.—The disruption at the municipal electric light works connected with the resignation of the chief engineer, J. O. Messer, had another phase added to it last night, when J. Robinson, a fireman employed in the works, was summarily discharged by Superintendent Joseph P. Kahn. Robinson, according to Kahn's statement, came on duty at 11 o'clock last night to take his usual shift in a condition of inebriety which incapacitated him from attending to the machinery. The superintendent happened on the scene, and taking notice of Robinson's uncertain actions, interrogated him and found that he had been drinking. Kahn told Robinson on the spot that he could go out, as his services were no longer needed, so he was obliged to leave the works. The discharged fireman has been connected with the works for one and a half years. He lives on Oak street and Clinton avenue and has a family.

## WOULD IMPROVE STREETS

ALAMEDA, September 1.—At the meeting last night of the West End Alameda Improvement Club in its program at Neptune Gardens a resolution was passed instructing the secretary to send a communication to the city trustees asking that they endeavor to have the Southern Pacific company improve Emeline and Central avenues, on which the tracks of the south side line are run. The by-laws were also changed, so that the time of meeting Wednesday instead of Thursdays. Arrangements were completed for the monthly entertainment next week, when a musical and literary afternoon of stereoscopic views will be given by N. C. Hawks. The show Alameda and other interest in California. Tickets for this entertainment can be had from M. H. Owen, H. G. Mehlman, under Mackay.

DIRECTORS SHOULD DIRECT. The time is coming when there must be a higher standard of ethics in the administration of trusteeships. It is a disgrace to say scandalous, that one individual should serve as trustee or director for seventy great corporations. Mr. Depey does.—From the Wall Journal.

## BAD FOR AGENTS AND SERVANTS

ALBANY, N. Y., Sept. 1.—An act of the last Legislature takes effect today which is decidedly against the practice of corrupt purchasing agents, whether they be the agents of a government or a private business. The act provides that a person who gives a bonus in return for his mistress' trade, or the agent of a great commercial house, whose patronage may mean thousands of dollars a year to the manufacturer who sells it.

## FINNS ARE PLEASED

HELSINGFORS, Finland, Sept. 1.—The conclusion of peace at Portsmouth came as a great surprise to the people here. Peace was earnestly desired, because Finland in the long run might suffer heavily under extra taxation, which so far has not been heavy. No demonstrations of any kind occurred. On account of the arrangement by which the Finns are excused from military service in consideration of the annual payment of \$2,000,000 the Emperor's concession to the Finnish objections to conscription, the Finnish battalions of the guard, the last remnant of the Finnish military organization has been disbanded. The disbandment deeply touches Finnish pride and has called forth a number of protests.

## CHAFFEE IN PARIS

PARIS, Sept. 1.—Lieutenant-General Adna R. Chaffee, accompanied by his aides-de-camp, and family, arrived here from Waterloo today, and was met at the railroad station by officials of the American Embassy and Major Vignal and Captain Pournier of the French army. Brigadier-General James F. Crozier, assistant chief of staff, is already here and Brigadier-General William Bell, chief of ordnance, is expected shortly. The American mission starts for the army maneuvers September 5.

## DRINK PROMPTS STORY

Max Von Erdmandorf and his wife Ann were before Police Judge Samuels this morning on a charge of drunkenness. The husband told the police yesterday that he had been "touched" for \$300. It was while making an investigation of this story that Erdmandorf was arrested for drunkenness. His wife says he did not have \$300. The husband was sentenced to serve three days in prison while the wife was allowed to go. The couple came from Aberdeen, Washington, two weeks ago.

Familiarity breeds contempt for mosquitoes.

## DESERTED BRIDE MORE REVENUE

Blanche O. Cummings, the young wife of John F. Cummings, a Fruitvale real estate man, was beaten in a suit brought by her against her husband for maintenance of herself and her five-months-old baby. According to her complaint she was deserted by Cummings five months ago and she is now in dire want. A demurrer to her complaint was sustained this morning by Judge Ellsworth, on the ground that under the law she could not bring suit against her husband until he had been absent for a year.

## WOULD GUARD ESTATE

A petition was presented to Judge Ogden, sitting in the probate court this morning, by John McElroy, asking to be appointed the guardian of the person and property of Mrs. Annie McKee, who was recently committed to an asylum. Judge Ogden refused to consider the petition unless he had the endorsement of Mrs. McKee's mother, who resides in this city.

## TOBIN IS OUT

J. D. Tobin, first bailiff of Police Court No. 2, is once more a patrolman on the street and Policeman Cockerton is now officiating as court officer. The change was brought about by Chief of Police Hodgkins this morning. Tobin has been twice appointed to the sinecure and twice removed. Chief of Police Hodgkins states there is no significance to the move except that all of the officers of the department will be given an opportunity of changing from night duty to day duty. Tobin had hoped yesterday to be appointed permanently to the position by the Board of Police and Fire Commissioners. It is whispered around that Tobin will be given an "inside job" later on.

## ROOM THIEF AT WORK

Lester Thompson Smith, who occupies a room in the Smith House on lower Broadway, reported to the police this morning that he had neglected to lock his door last night on retiring with the result that he was robbed of a watch, a dollar in money and a few trinkets.

## STATEMENT OF THE MINT COINAGE

WASHINGTON, Sept. 1.—The monthly statement issued by the director of the Mint shows that the coinage executed at the mints of the United States during August was as follows:

United States gold, \$9,920,000; United States silver, \$193,000; Panama half balboas, 1,000,000 pieces; Philippine pesos, 402,000 pieces.

## PASSES BOGUS CHECK

N. Consolation, who conducts a restaurant at 552 Broadway, had a worthless check, passed on him by a man giving the name of John J. Wagner, calling for \$25, as the only consolation for being taken in by a stranger. Wagner called at the restaurant man's place of business and said he wanted to get a week's board which came to \$3.75. He presented a check for \$25 and received the change, amounting to \$21.25. He did not wait even to get a meal after getting the money, but disappeared at once. The check was sent to the First National bank, but it was promptly returned as worthless. The police are now looking for Wagner.

## CRUELTY TO NATIVES

PARIS, Sept. 1.—As a result of the investigation of Constant de Brasse, the African explorer, into the charges of brutality against the natives of the French Congo, the Government announced today that the two chief colonial functionaries, M. Gaud and Toque, have been sentenced to five years' imprisonment. The charges included compelling the native to eat a dish made of the flesh of dead relatives and also expelling cartridges inserted into the bodies of natives.

What a pity that truth is the most disagreeable thing one can say about some people.

# FIEND APPLIES MATCH OF HAWAII

## Boy Throws Gasoline on E. H. Harriman's Uncle Playmate and Sets Him Afire.

CHICAGO, Sept. 1.—A dispatch to the Tribune from Hannibal, Mo., says: Charles Christian, 11 years old, son of Lee Christian, was roasted alive in Union street last night by another boy named McLain, who dashed a can of gasoline over the clothes of young Christian and then applied a lighted match.

Christian was playing on the street with several other boys when McLain walked up swinging a gasoline can. After twice threatening to roast the Christian boy alive, he finally made his word good. He unscrewed the cap of the can, rushed upon Christian and drenched him from head to foot with gasoline. Before the unfortunate lad could get away he touched a lighted match to his trousers, which were soaked with the gasoline.

Instantly the boy was enveloped in flames. He fell to the ground screaming in agony and fighting the fire. Many persons ran to his rescue and succeeded in extinguishing the flames. Every stitch of clothing was burned from young Christian's back. The boy will die.

## INCREASE IN BANK NOTE CIRCULATION

WASHINGTON, Sept. 1.—The monthly circulation statement issued by the Comptroller of the Currency shows that at the close of business August 31, 1905, the total circulation of National bank notes was \$512,230,367; an increase for the year of \$58,703,594; and an increase for the month of \$5,948,973. The circulation based on United States bonds amounted to \$478,785,166, an increase for the year of \$61,405,335 and an increase for the month of \$1,170,494. The circulation secured by the lawful money aggregated \$33,445,202, a decrease for the year of \$1,702,271 and an increase for the month of \$1,078,578. The amount of bonds on deposit to secure circulating notes was \$482,108,090, and to secure public deposits, \$67,037,300.

## ESTATE WILL GO TO FOUR CHILDREN

Petition for letters of administration on the estate of the late Anne Mathews has been filed by Patrick Torney, who states that the deceased died without leaving a will and that he has been nominated by the heirs to petition for letters. The property, he says, is valued at about \$55,000, most of which is located in San Francisco.

## MINERS AGREE UPON A SCALE OF WAGES

BUTTE, Sept. 1.—A Miner special from Helena says that at a conference of the United Mine Workers of America for the district comprising Montana and Wyoming, it was agreed upon the present scale of wages for another year. This action precludes any possibility of a strike on this score for another year.

## MISS JEROME IS SOON TO MARRY

Attorney George E. De Golia this morning filed the final answer in the estate of the late E. B. Jerome. The account shows that there is nothing on hand, but some money and a gold watch and chain.

## TREATY SATISFACTORY

LONDON, Sept. 1.—Diplomatic circles here are taking deep interest in the new Anglo-Japanese treaty, but as yet they are not in possession of anything but the brief outlines already cabled.

They are satisfied that it provides defensive alliances on one hand, guaranteeing Japan the fruits of her victories in the Far East, and on the other hand insuring Great Britain against aggression in India. The diplomats express themselves well satisfied that it engenders peace. In German circles the treaty is looked upon favorably. It is expected that it will be promulgated upon the signing of the Portsmouth treaty.

Miss Kittie Hopkins, who is the guest of Dr. D. P. Durst and family, of Marysville, was thrown from her horse and injured.

# KILLED BY KING

## Victim of Jealous Ruler.

HONOLULU, Sept. 1.—While in Honolulu, E. H. Harriman, the railway magnate, made inquiries regarding one Charles Neilson, who was shot and killed by King Kallehaleha, V, and who was an uncle of Harriman. The railway man expressed himself as anxious to meet some one who had known Neilson and could tell about him, but no such person was found.

The killing is referred to in Hawaiian histories. It took place at Lahaina, in 1853. Neilson was secretary to the King, and the latter, who was a heavy drinker, conceived an idea that the secretary was in too high favor with the Queen. While under the influence of liquor he shot Neilson, inflicting wounds which eventually proved fatal. The tragedy is stated to have so weighted the King's mind that he was never the same, and offered to abdicate, and died soon after.

## WAGON RUN DOWN BY AUTOMOBILE

SAN JOSE, Sept. 1.—An immense "red devil" containing a party of four men and running at a furious clip, crashed into a horse and buggy at noon yesterday a mile north of Irvington, on the Niles road. The rig was demolished, the horse was killed, and John Walsh, a farmer, was thrown into a ditch by the roadside, but escaped serious injury.

## COLLINS MUST STAY IN VICTORIA JAIL

VICTORIA, B. C., Sept. 1.—George D. Collins is in great grief tonight, as he is an inmate of the common jail, with no prospect of again walking the streets at Victoria before November 1.

## RESIGNS FROM THE WESTERN PACIFIC

SAN FRANCISCO, Sept. 1.—George L. Dillman, who has been consulting engineer of the Western Pacific Railroad ever since its conception, has resigned his position and will join with Colonel Draper, a well-known local civil engineer, in the construction of local roads. Dillman's resignation has been in the hands of the directors of the Western Pacific Company for several days and will be acted on at the next meeting of the directors.

## PROCTOR NOT GUILTY

SAN FRANCISCO, Sept. 1.—The judgment of the Superior Court of Alameda county convicting William Proctor of larceny and denying him a new trial was yesterday reversed by the District Court of Appeal. Proctor, it seems, while selling wares of various kinds in the little town of Niles, dropped into the house of Emeline Tyson, a good-natured lady of over seventy-six years of age. A pleasant conversation followed, during which she purchased a pair of spectacles, and incidentally won the heart of the salesman, who told her that "it was a case of love at first sight," and asked her if he might call again. Upon gaining her consent he promised to be at her home, whereupon Mrs. Tyson arrived, and promptly proposed to the old lady, told her the story of his life, and begged her to marry him. She agreed to do so, and he was given a bill of sale of an imaginary automobile which he owned. That was the last the lady heard of the man or the money until she had him brought before the court on a charge of larceny.

Judge Melvin sentenced him to six years at San Quentin, but upon appeal the higher authority reversed his judgment on the ground that, inasmuch as Miss Tyson believed Proctor was to be her future husband, she parted with the title and possession of the money and was the victim of misplaced confidence and affection, but that defendant is not guilty of larceny in getting her money.

B. Meves and T. Meves of this city are visiting their sister, Mrs. E. C. Hoffmann, of Santa Cruz.

# NOTED ENGINEERS TALK OF CANAL

## Will Discuss the Type to be Used to Connect the Atlantic and Pacific Oceans.

WASHINGTON, Sept. 1.—Eminent engineers of the United States and Europe met today on the call of President Roosevelt to make recommendations as to the type of canal that is to connect the waters of the Atlantic and Pacific Oceans. By the executive order last June, a board of consulting engineers was constituted, consisting of General George W. Davis, A. G. Noble, Wm. B. Parsons, Wm. H. Burr, General Henry L. Abbot, Frederick P. Stearns, Joseph Ripley, Isham Randolph, all American engineers; Henry Hunter, named by the British Government, Herr Eugene Tincanauer, nominated by the German Government; M. Guérard, nominated by the French Government, and J. W. Welcker, nominated by the Government of the Netherlands. It is this board which assembled today at the offices of the Isthmian Canal Commission. The members were met by Chairman Shonts, who in a few words, expressed the belief that the President and Congress will follow their recommendations.

### THE ENGINEERS.

The board of consulting engineers will have all the data that has been collected by the commission bearing upon the subject. This data may be considered sufficient by the board to determine whether the canal should be constructed with locks or should be a sea level canal, and that if the former should be recommended then details as to the character of locks will be taken under discussion. The recommendations will not be final, but will be made to the Isthmian Canal Commission, which in turn, will use its own judgment in a report to the President. The final conclusion as to the type of the canal will be settled by the President and Congress. In calling the meeting of the board of consulting engineers, the President directed there was a difference of opinion among the members, there should be a minority report, and it also was stated that the board might visit the Isthmus before making its final report if it should be necessary. The board of consulting engineers will not have referred to it detailed questions of engineering connected with the construction of the canal after the type has been determined. Beyond making recommendations as to the type of the canal, suggestions as to the method of construction of lock canals, its duty will close.

### STEVENS' POSITION.

The executive work of the Canal Commission has been much simplified by the selection of Mr. Wallace as chief engineer. Previous to that time the duties of the commission as an executive body were distributed between Chairman Shonts, Chief Engineer Wal-

lace and Governor Magoon, Chairman Shonts having a general supervision of the work. Mr. Wallace was a member of the commission, but when John F. Stevens was made his successor as chief engineer he was not made a member of the commission, but was employed by Mr. Shonts, and the engineering and construction work is under his direction instead of the general supervision of Chairman Shonts. Chief Engineer Stevens is not a member of the executive board of the commission. While the engineering work will be under immediate supervision of Mr. Stevens, he will be assisted by a committee on engineering. Such problems of a technical character as Mr. Stevens desires to be worked out will be submitted to the committee of engineers. The problems which will be submitted to the engineer committee will not be numerous until the type has been determined, although it is said that the board that is to meet today will avail itself of the experience and advice of the engineering committee on account of the connection which the latter have had with the canal since the United States Government took hold of the enterprise.

All members of the board were present today when Gen. Davis called the meeting to order, the letter of the President convening the board was read and an informal discussion followed as to methods of procedure and plans. It was decided to leave these arrangements to a committee consisting of Messrs. Davis, Parsons, Abbott, Randolph and Quellence. While the board was in session the members of the Isthmian Canal Commission called and were formally presented.

The duties of the board are separate from the commission and the commission simply provides rooms, clerks, interpreters and necessary facilities for the transaction of the business of the board. Captain J. Oakes, Corps of Engineers U. S. A., is secretary for the board.

While the committee on procedure was in session, the board took a recess until 3 o'clock.

## "THE CONFLICT" AT LIBERTY THEATER

"The Conflict," a powerful drama by Maurice V. Samuels, was presented again last night at the Liberty Theater before a crowded house. From the applause given by the audience it is evident that the play was appreciated by all who attended. The scene of action is laid in Paris at the present day and opens with a view of Cesare Rosap's curiosity shop in the Rue des Saint Peres, Paris. The leading roles were taken by James Neill as Raphael de Valentine and Edythe Chapman as Bernice Dorian. Both gave clever impersonations of these characters and were loudly applauded by the audience.

The rest of Bishop's players, including Lillian O'Neill, Miss Gleason, James Gleason, Gilmore Walker, Edwin Emory, Robert Wayne, Franklin Underwood and Reginald Travers, are all excellent in respective roles. "The Conflict" will be the attraction at this playhouse for the entire week with the usual matinees on Saturday and Sunday.

## GRAPE GROWERS PROTEST

VITICULTURAL CLUB NOT CON-  
NECTED IN ANY WAY WITH  
WINE TRUST.

Editor TRIBUNE—Dear Sir: I have just read your editorial on the University farm and the California Viticultural Club.

I am not in a position to make any remarks on the policy to be followed in the choice of the University farm, but as secretary of the California Viticultural Club I protest strongly against your unjust criticism of the organization. In the first place, the California Viticultural Club is not composed of "winemakers," but of vineyardists, some of whom are engaged in winemaking, others in raising grapes. The "wine trust" as you call it, has absolutely no control over the California Viticultural Club, as they have never had one of their members among the officers of the club. If you had looked over the names of the officers of the club you would have seen that they are all grape growers with the exception of the writer and not only are they not connected with the "wine trust," but are in strong competition with it. The California Viticultural Club has members in all grape growing sections of the State. At the meeting held in Helena, August 18 and 19, most of the members present came from Napa, Sonoma and Contra Costa counties. The members appointed a special committee to word the resolutions and they were passed unanimously. The opinion generally held being that the farm would be used to give practical training to the students after the completion of their theoretical studies in Berkeley. As they would be located on the farm during the terms in which they are taking their practical training, it would be of no advantage to have the farm near the university. Yours very truly,

## WILL HOLD A LOG ROLLING CONTEST

Golden Gate Camp, No. 7236, M. W. of A., is making preparations for the annual log rolling of the Bay Counties Log Rolling Association, which will be held in Napa September 9. The Foresters' team is working hard to bring home the prize offered for the best drilled team. Last Thursday night there were two new members taken in and several new applications received. Neighbor L. Seery has taken charge of the deputy work in this district, and from present indications there will be adoptions every night for the rest of the year.

## YOUNG LUNING DYING

He is Said to be in Middle Stages of Consumption.

SEATTLE, Sept. 1.—A runaway from home, (Nicholas T. Luning, son of an Oakland millionaire, lies in a little boarding house room in the middle stages of consumption. Today he broke down in the office of John Davis & Co., where he has been working and his employers sent him to his room.

For the last year young Luning has been working as bookkeeper at a desk in the Davis office. The change from a boy of leisure to a worker has told on his constitution, never too strong, and he is now in a serious condition. A physician is in attendance and says he probably will never be able to work again.

It is just a year since Luning defied his father and eloped with Miss Haas, who is the stepdaughter of an Oakland millionaire. He came to Seattle with his young wife, but the pampered son was unprepared to combat with the world. He was some months ago given a job by the manager of the John Davis Real Estate Company taking up signs on vacant property. He soon earned promotion to bookkeeper and has earned a bare living for himself and wife without complaining.

The couple are without means, but the wife will care for him and the best medical attention is being furnished.

When informed last night that Nicholas Luning was at the point of death in Seattle, Attorney Fred L. Burton, the stepfather of Mrs. Nicholas Luning Jr., expressed great surprise. He said he had received a letter from Mrs. Luning two days ago, telling him of attending several social events they had attended. He made no mention of any illness of his husband. A postscript in Luning's handwriting also failed to make any mention of sickness.

Attorney Burton said that since the couple had been in the north Luning's health had not been of the best, but that he had suffered no illness of such a nature as to keep him from attending regularly to business.

The elopement and secret marriage of the young couple caused a sensation in local society, and this was not abated when Oscar Luning, the millionaire father of the groom, declared that his son

## WIFE PLEADS FOR PETERSON

MAN WHO ATTEMPTS TO SHOOT WOMAN RELEASED ON PROBATION.

No more tipping the elbow at the bar for N. J. Peterson. Upon this proviso, the man who, a few weeks ago, fired several shots at his wife in a drunken fury, left the courtroom this morning accompanied by the woman who forgave him. He will once more take his place at the head of the household since his incarceration has lacked the comforts with which he supplied it.

Peterson is an electrician and earned a good salary until his attack upon his wife forced her to take some action to protect herself. She said that she had no complaint to make against him when he was sober and that their home was a happy one. But when he drank her life was full of misery. She feared his home-coming and upon the last occasion he tried to kill her.

Attorney A. L. Frick represented Peterson and made a plea to the court to allow his client his freedom under the probation act. The forgiving wife was by her husband's side. Since his incarceration three weeks ago she has had to work to earn the necessities of life and she wants his help and support. So it was finally agreed that if he would plead guilty to the charge he would be allowed to go, but for two years he must refrain from drinking. If he errs he can at once be delivered into the hands of the authorities and sentence pronounced forthwith.

### WILL GIVE SOCIAL.

The Oakland Traction Club, composed of street car conductors and motormen, will entertain their friends this evening at a social which is to be given in their club-rooms, 612 Jones street. The program for the evening will be furnished by the Oakland Traction Club's band and an unusually good time is expected.

These social gatherings are held from time to time by the carmen and prove to be very successful.

## WANT ROOSEVELT AT BANQUET

NEW HAMPSHIRE WILL HONOR THE PRESIDENT AND PEACE ENVOYS.

PORTSMOUTH, N. H., Sept. 1.—President Roosevelt received today an invitation on behalf of the State of New Hampshire, to attend the banquet which is to be tendered by that State to the peace envoys of Russia and Japan. The banquet probably will be held at the Mount Washington House in the White Mountains, at some time in the near future.

The invitation was extended personally by Senator Burnham of New Hampshire and George H. Moses, secretary to Governor McLean of that State, who arrived here today to make an appeal to the President to participate in the function. Senator Burnham already had been informed by the President that he would be unable to go to New Hampshire this month, but it was decided to make him this personal appeal to change his mind.

Discussing the situation at Portsmouth, Senator Burnham said: "This recognized generally at Portsmouth that if it had not been for President Roosevelt the peace conference would have terminated many days ago in a rupture and the titanic struggle in the Far East would have continued perhaps indefinitely. President Roosevelt's name is on every lip and he is universally accorded the glory of ending the war and bringing about peace. He is one of the most conspicuous characters in our history."

THOMAS F. RYAN ON WAY TO SAN FRANCISCO

One of the Organizers of the Equitable Life Wants the Guilty Punished.

1-W. . . . . Kira-daUp.rr bjei  
SAN FRANCISCO, Sept. 1.—Thomas F. Ryan, who has the reorganization of the Equitable Life in his hands, was expected at the St. Francis this morning, but he delayed starting from Portland and will not reach the city till this evening. Mr. Ryan is in his private car, the Pere Marquette, and with him is a group of New York capitalists. His trip to the Pacific Slope is said to be purely on pleasure and the duration of his stay in town is not known.

There are few who have so suddenly come before the public as Mr. Ryan. Though he has been an enormously rich man for years, he never attracted much attention outside of New York. When he undertook the reorganization of the Equitable he became a national figure in finance.

He purchased for the sum of \$2,500,000 the interest of James Hazen Hyde in the Equitable, and said that his sole purpose of doing so and undertaking the reorganization of the company was in the interest of the policy-holders.

One of his first steps in the scheme of reorganization was to appoint Grover Cleveland, James Westinghouse and Justice O'Brien of New York as trustees of the stock. He went still further, and took Paul Morton from the Cabinet and made him the chairman of the board.

Mr. Ryan is credited with being the instigator in the matter of having an investigation of all insurance companies doing business in New York State, and believes the Federal Government should regulate insurance companies, and he has repeatedly said that Mr. Morton will do all in his power to have the committee, which is appointed from the two Houses of the Legislature, have free access to all the avenues which will lead to information.

Mr. Ryan was interviewed on his way to the city, when he said:

PUNISH THE GUILTY.  
"This is my eighth visit to the Pacific Coast, as far as the business of the country since my last visit in 1901, and the evidence of prosperity to be seen on all sides.  
"As to the Equitable Life, my purchase of the control of the stock and inducing Mr. Morton to take the presidency was only a public relation to the real work of other men would have readily performed had they been aware of the dis-

PROTECTION FOR THE PLAYERS INTO THE BAY

CINCINNATI, Sept. 1.—The question of drafting of players for next season was the most important matter to come before the National Baseball Commission which was called to meet at this city today. Before the meeting was convened it was said that all players secured in a legitimate manner will be given to the clubs that claim them, but where there is a flaw in the deal or the same is proved not to be bona fide the commission will declare such transaction void. Other matters of minor importance will receive the attention of the commission and it is thought the session will take up the whole day.

The first important business was the adoption of an amendment intended to cover players by drafting. The rule as adopted was as follows: "Wherever the minor league player has been purchased by the major league club, such player cannot revert back to any minor league club during the year following such purchase unless the major league club in both the National and American League shall have waived claim to his services. And if such waivers cannot be secured, then the players shall either remain with the club having purchased him or be transferred to the club refusing to waive claim to his sub-sale to such club, and in such instances, the purchase price shall be the same as is now fixed by National and American League." The commission refused to reopen the case of W. B. Douglas, claimed by the Philadelphia National League team and wanted by the Kansas City American Association Club.

SUES COMPANY FOR DAMAGES KNOCKED DOWN BY AN AUTO

Suit for \$25,000 damages was brought against the Oakland Gas Light and Heat Company this afternoon by Michael C. Fahy for his son, Frank W. Fahy, who it is claimed has been permanently injured by taking hold of an electric light wire that had fallen across Vernon avenue between Ross and College avenues. It is claimed that the company had allowed the wire to rust and rot until it broke and that young Fahy without knowledge of its danger took hold of the wire and received a shock of 2500 volts.

SAN JOSE, Sept. 1.—Leo Nickerson, a local member of the Fire Department, was arrested today on a charge of having turned in numerous false alarms of fire during the past few months. He was placed under heavy bonds. The crime is a high misdemeanor.

SECRETARY METCALF AT BUREAU DREAD CHOLERA SPREADS

Investigating How the Chinese Exclusion Law Works. and Dies of the Disease.

SAN FRANCISCO, Sept. 1.—Secretary Victor H. Metcalf, whose views against any alteration of the embargo against Chinese immigration are well known, visited the local bureau of immigration and Chinese affairs yesterday to inform the bureau of the practical workings of the regulations at present in force before leaving for Washington. Secretary Metcalf, as head of the Department of Commerce and Labor, is the official chief of the Chinese and immigration bureau, and will take an important part in any legislation affecting the status of Chinese immigrants introduced at the coming session of Congress.

An officer of the bureau said, after Metcalf's visit, that while he could not give out the instructions uttered by his chief, it was no secret that the views of the Secretary and the local officials are in harmony with regard to the Chinese question. He said:

"This bureau has had considerable hammering of late, both from high government officials and from the merchants of China who are engineering the boycott against American products. The burden of the complaint is that incoming Chinese of the better classes are subjected to insults and injury by us. There has been a good deal of trouble with Chinese immigrants who have presented papers that were clearly fraudulent and not our fault, but has been due to crooked work by officials in China. We consider it probable that there is to be some further overhauling of the service on the other side, and that responsible inspectors will be assigned to that station who will be required to certify to us the credentials of all intruders. That would effectually shut out the coolies who have brought papers certifying that they are not our fault, but have been undoubtedly purchased by them on the other side. As for this bureau, no criticism has been made by the Secretary, and the bureau have not been properly performed."

WILL NOT TAKE THE BONDS

SONOMA, Cal., Sept. 1.—Mrs. Martha Stearns, buyer of the municipal bonds voted for a City Hall here at \$900 premium, will not now accept the bonds, as there is alleged to be a flaw in them. The election was held before the time required by law, which it is declared invalidates the bonds. Another bond election will be held.

MANY EMPLOYEES DISMISSED

SAN FRANCISCO, September 1.—Ninety-seven employees of the United States mint were discharged yesterday afternoon by Superintendent Frank A. Leach because a corner has been secured on the silver market. The action of the superintendent came without warning to many of the employees, and there was consternation in every department when the blue envelopes were distributed. Of the ninety-seven discharged, thirty were women employed in the coiners' department.

As each has more or less political influence, although under Civil Service, the superintendent expects to become the center of a whirlwind of indignation as soon as the word-pulling begins. The force has been increased from time to time with the understanding that there would be a curtailment of expenses as soon as the Philippine cologne was completed, but nevertheless the appointments expected to hold on in spite of Civil Service rules, and they are accordingly disappointed at the outcome.

When the Mint began the recolonization of the Philippine silver the working force in the coiners' department was nearly doubled. Two years have been occupied in this work during which thousands of Spanish pesos have been converted into American dollars. Besides there has been a great volume of work coming from the Klondike and some from Japan. The income of metal from these sources has taxed the capacity of the Mint.

"A corner in the silver market has caused us to close down," says Chief Clerk Ben W. Day. "The financiers have captured the supply, and in expectation that the Government was about to buy have run the price up from 55 cents an ounce to 62 and 53 cents. The Government would have probably made some purchases, but the idea has now been abandoned."

"While the Philippine cologne was in progress there was plenty of work, but that has now been completed. We have been making a profit in excess of the appropriation of between \$30,000 and \$100,000 a year. This has been made off now we will have to keep within the limits. The persons who have been discharged were new Civil Service employees, with the exception of two or three."

Chief Colner Dan T. Cole, from whose department fifty of the discharged were made, gives the same reason for the superintendent's action. "The work on which we have been engaged is completed, and the working force had to be cut down. The discharged employees still remain on the high list, but the work picks up within a year they will be reapportioned. It does not seem likely, however, that it will do so, as the Government does not intend to purchase any great amount of silver."

NORWEGIANS CONFER WITH THE SWEDES

STOCKHOLM, Sept. 1.—The Dagblad this evening received a telegram from Christiania, saying that immediately after the morning session of the Commissioners at Karlstad, a high authority received information from Karlstad that the negotiations might last for weeks and perhaps for months. This would indicate that some of the conditions are unacceptance.

KARLSTAD, Sept. 1.—The Swedish and Norwegian commissioners appointed to discuss the dissolution of Norway and Sweden, who assembled here yesterday, met again this morning and in the afternoon. The Swedish proposals were submitted at the morning session. The afternoon session was maintained. Not a word was given out.

WOMAN KILLED IN WRECK

Cars Leave Track and Ten Persons Meet Death.

WITHAM, England, Sept. 1.—As the express from London to Cromer on the Great Eastern Railway was entering Witham station this morning several passenger cars left the track and crashed into the station buildings, causing the death of ten persons, six of whom were women, and seriously injuring twenty others.

Among those killed was the porter of the station, who was sitting in his room. He was crushed to death. Two ticket sellers were buried in the wreckage, but they escaped serious injury. The gasometers beneath the cars caught fire, and consumed the wreckage. All the bodies were saved before the flames gained headway. It was the rear cars that left the track, the engine and front cars remaining on the rails. The rear cars mounted the platform of the station, demolished the buildings and then turned over.

GIRLS FIGHT MARSHAL

Two Pretty Gypsy Maid Arrested For Stealing.

BERKELEY, September 1.—Two pretty gypsy girls, Mary Mitchell and Rosie Marcella, were arrested by City Marshal Atcheson today, charged with stealing wood.

One of the girls is the daughter of King Mitchell, leader of the big gypsy camp on the Grayson tract in West Berkeley.

The girls resisted arrest and fought with all their might before submitting to Atcheson's attempt to take them to the Marshal's office. They were taken for an hour, and then released on \$25 bail.

The neighbors have complained of these gypsy camps, and Marshal Vollmer is determined to stop the gypsies for every transgression they commit.

OTTO L. HASSE IN SUPERIOR COURT

Otto L. Hasse, charged by the County Jury with presenting false and fraudulent evidence to the County Clerk, came up for arraignment before Judge W. H. Waste this afternoon, on motion of John J. Burke, his attorney, the matter was continued to next Friday. The indictment counts several specific charges against the defendant, fraudulently altered changed bills after they had been tried to by different county officers.

# TALLEST FLAG-POLE RAZED

DECAY MAKES IT NECESSARY TO LAY LOW THE STAFF.

The highest flag pole in the city has been taken down and is now prone upon the ground over which, for many years, it held aloft, upon national holiday, the stars and stripes.

This staff was 150 feet in height and, for about fourteen years, it stood in the school yard of the Church of the Immaculate Conception and around it the children of the parochial schools indulged in their daily gambols.

From the top of this staff, when a flag was bent to the breeze, the symbol of national union and patriotism could be seen from all parts of the northwestern, western and southern sections of the city, and glimpses of it could also be had even on the hills of distant Piedmont, though it was hidden from East Oakland by the Church which intervened.

Advancing decay was the cause for the razing of the staff. The pole was nearly two feet in diameter at the base, it was embedded in about eight feet in concrete in the ground and, when it was placed in position it was thought that it might survive a generation.

While it is believed that the base of the pole in the concrete is still in a sound condition, there is a certainty that decay attacked the pole immediately above the line of the concrete surface. The erosion had girdled the timber to a depth of about an inch and there was no known means of arresting the deterioration. It was, therefore, of course only a question of time before the core of the sturdy timber would be reached, but, long before that time, the pole with its increasing infirmity, would be a menace to the safety of property and life in that vicinity.

The toppling pole might take occasion to fall upon the home of the clergy, upon either of the two schools when they were crowded with children or upon the Church of the Im-

# DEPOSITORS WILL BE PAID IN FULL

NEW YORK, Sept. 1.—A practical settlement of the affairs of the Merchants' Trust Company, which failed a few months ago, has been announced. The securities of the Hudson Valley Railway Company, which were owned by the Merchants' Trust Company or held by it as collateral for loans, have been sold by the receivers to the Colvin syndicate. The price received for these properties was not made public, but counsel for the receivers stated that the proceeds of this would enable the receivers to pay depositors in full together with all creditors and that there would probably be something left over for the stockholders.

# Put a Stop to Vandalism.

The vandals who have left their mark upon the marble walls and glass mosaics of the new Postoffice Building in San Francisco should be given short shrift if discovered by the Federal authorities. Within less than forty-eight hours after the formal opening of the building outrageous mutilations have been perpetrated upon the decorations in many places, and it will require no inconsiderable outlay to restore them to their original condition, if indeed this will be possible in every case. Men and women in whom the desire to destroy is so strong as to totally leave them without respect for either public or private property, are as great a menace to society as the ordinary type of criminal, and equally merit restraint of their liberty.

It is an unpleasant truth that the spirit of vandalism is nowhere as much in evidence as in the United States. In Europe, where art is loved for art's sake, priceless treasures in the various museums and cathedrals are open to the inspection of countless throngs, to whom the slightest vandalism upon them would be no less than sacrilege. Buildings and contents are respected by moral as well as written law, and the few attendants who pace the floors of the British Museum or the Louvre are superfluous so far the necessity of the exercise of their authority is concerned.

It is a fact that the majority of vandals are of a class whose apparent education and breeding leaves them no excuse for their acts. Chief among them are tourists who do not hesitate to carve splinters from ebony, cut patches from silk and velvet, tear strips from the finest painted canvas or hew chips from marble statues in order to carry home a "souvenir." Their detection, and a close proximity to the brick walls and iron decorations of a jail should be made to serve them as the most vivid and lasting recollection of their visit.

The Glee Club of the University of California is in the throes of dissension, being unable to decide whether musical ability or social distinction shall be made the standard of qualification for membership. To the unbiased observer it would seem that the possession of a fair voice and the ability to use it are the only points to be considered in the matter at hand. More music and less snobbery, young gentlemen! It is not many years ago that the best singer in the Glee Club of an Eastern university, who was lionized more than the more socially fortunate members of the organization, was a student who was working his way through college by washing dishes in a restaurant. The man whose soul is imbued with music is as a rule a more desirable associate than he whose chief aim is to wear a dress suit and part his hair in the middle. True college spirit is democratic in the extreme, and is not evinced by the desire to exclude a musician because he lacks arbitrary "social" distinction.

# Major Calderwood Still Crusades.

Our eminent and eloquent fellow citizen Major George Washington Calderwood is still pursuing the Demon Rum with tongue out and bungstarter in hand. Evidence of this fact is contained in the following paragraph taken from the Hannibal, N. Y., News:

"A big crowd at the Baptist Church last night greeted Major G. W. Calderwood, The Silver Tongued Orator of the Pacific. For one hour and a half he held the audience spell bound, sometimes by his sparkling wit, sometimes by his withering sarcasm, now full of pathos and again startling almost to the shocking point, but always carrying his audience with him. The Pacific people have their own unique characteristic ways of doing and saying things, and the Major is one of them, in fact he is big enough for two of them in more ways than one. Hannibal people who do not hear him will miss the opportunity of a lifetime."

We who know the Major out here are willing to wager dollars to apples that he will "eat the enemy up" if he succeeds in overtaking him.

There appears to be a rod in pickle for Robert S. Bergh, the American consul at Genthenburg, Sweden, who is charged with having failed to raise the Stars and Stripes over the consulate upon the recent occasion of the birthday of King Oscar, although the flags of all other nations were duly displayed at their respective headquarters. It is urged in mitigation that Mr. Bergh is a Norwegian by birth, and as such harbors more or less resentment against the Swedish government. There are doubtless many American-born aspirants for consulships who will be glad of the opportunity to teach Mr. Bergh a lesson in international courtesy.

The deaf man in Pennsylvania who had his hearing suddenly restored by being struck by a train while driving along the track has a grievance against the railroad company. He will no longer be able to use the right-of-way as a thoroughfare without being disturbed by the shrieking of whistles and ringing of bells.

The Chief of Police of Bahia has refused to accept the \$12,000 offered by the Paris Comptoir d'Escompte for the capture of Gallay, the absconding bank clerk. It now behooves someone to write a treatise upon the merits of the Brazilian climate as an incentive to virtue.

Let it be the Treaty of Sagamore Hill, by all means. Hysterical telegrams of praise from crowned heads are not writ in the book of Time, and History should perpetuate, if only indirectly, the effort of Theodore Roosevelt to secure peace between two world powers.

That earthquake struck Portsmouth too late to be of any particular service to the horde of newspaper correspondents. Had it occurred a day earlier, the enterprising journalists would have declared the temblor to have emanated from the Navy Yard, caused by Witte's astonishment at Komura's acceptance of his ultimatum. Another good story gone wrong.

Kegoaya Kozga is the title by which the select Woman's Club of Nome is graced. The exact significance of the appellation is not clear, but the ladies of the icy North are to be congratulated upon their choice. Any organization that can get along with a name like that is bound to be, in all other respects, successful, harmonious, a thing of beauty and joy forever.

The process of eliminating the negro from politics in the South is not confined to Democrats. At the recent Republican convention of Virginia only two of the six hundred delegates were colored. The negro was nominated for office, and the State Committee, with a single exception, was made up of whites. Yet the bulk of the Republican vote in Virginia is cast by colored men. In Atlanta, Georgia, a "white primary" is soon to be held to choose municipal officers. All white men can vote at this primary and men of all parties are eligible as candidates. No party candidates will be nominated against the winners in this primary. The white primary scheme was worked out to prevent a division of the white vote and to prevent the negro vote from being a factor in nominating or electing candidates.

# Use and Vitality of Labor Unions.

The Providence Journal, which has strong capitalistic leanings, is not among those who believe labor unions are without their uses and can be crushed permanently. On the contrary, the journal is of the opinion that labor organizations are necessary for the protection of those who toil at manual labor, and having a useful purpose must survive in spite of occasional defeats and mistakes. It says:

"If history repeats itself, as it has a habit of doing, those journals devoted to the textile industry which are assuming that the Fall River labor unions are practically defunct may discover that they are reckoning without their host. That these unions were hard hit by the recent prolonged strike, which depleted their treasures, is admitted, of course. It is doubtless true, too, that their failure to carry their point in the effort to resist a reduction in wages has impaired their influence at the state-house, and that what is known as "humane" legislation, bearing on factory management in Massachusetts, will be temporarily checked.

"Nevertheless, this country is not witnessing the passing of labor unions in Fall River or elsewhere. Those most directly concerned are still firm in the belief that the benefits to be derived from them outweigh their drawbacks, and that in the pooling of issues lies the only salvation of the workingman."

The Journal takes the correct view in our estimation. If it be right their efforts to destroy the labor unions is both wrong and futile. Those who believe them to be something to be attacked wherever found have something yet to learn about the labor problem. They are fermenting industrial war instead of promoting peace and good will.

William Travers Jerome wants to run again for District Attorney of New York. Some other people want him to run for Mayor against George B. McClellan. If he does he will be neither Mayor nor District Attorney.

President Cleveland has survived all the members of his first cabinet save one. Is this a case of the survival of the fittest?

In cabling the Czar the announcement that an agreement had been reached with the Japanese envoys, M. Witte says, "Japan has conceded all your Majesty's demands." Then he plaintively begs the Czar's forgiveness for not accomplishing more. How absurd! Speaking to the Czar as if he had dictated terms of peace to a defeated enemy is ridiculous enough in the light of universal knowledge of the facts, but apologizing for failure to obtain more than the Czar "demanded" is still more comic. The fictions of Russian diplomacy rank in the opera bouffe class.

The strike breakers of Chicago have effected an organization, and will demand a schedule wage of not less than \$5 per day. We may now expect to hear of a strike of strike breakers.

Professor E. J. Wickson declares that the question of what is to be done on the University Farm must be decided before the site can be definitely chosen. It was hoped that the farm was to be devoted to the interests of agriculture and stock raising. Can it be that the learned educators contemplate giving a pastoral setting to any other branches of the University curriculum?

General Linevitch has been notified that an armistice has been declared. He is thus deprived of any lingering ambition to have "the honor to report to your Majesty one more Russian defeat."

## FOR CLOTHES.

Thank God for clothes!  
Not that they shield us from the winter rude,  
Not that they foster social rectitude  
And cloak deficiencies—for none of those;  
But for the warm uplift that furbelows  
Can kindle in this sorry human clay—  
The glory and the strut of fine array;  
Thank God for clothes!

Thank God for dress!  
That through the darkest day can send a gleam,  
When some long-pondered frock comes home a dream;  
That glorifies the marriage rites, and, yes,  
Lends to bereavement craped becomingness;  
That gives us courage to confront our fate—  
Illusions shattered, but our hat on straight!  
Thank God for dress!

Thank God for frills!  
Let others praise for house and food; I praise  
That still there lurks enchantment in my days  
While shops are bright with raiment; that the thrills  
Of purple and fine raiment nothing kills;  
That though I die to music, drama, art,  
Still will a sicken rustle rouse my heart!  
Thank God for frills!  
—Juliet Wilbur Tompkins in September Munsey.

## THE VISION IN THE CITY.

Bred in town am I,  
So would I will to be,  
Loving its glimpses of sky,  
Swayed by its human sea.

Out of its greed and scorn,  
Strong hands and kindly reach;  
Over its discords borne,  
Listen—what gentle speech.

Here in the surging crowd  
Modern in habit and names,  
Linger all unawared,  
Simon, Peter and James.

Judas goes cringing by  
Heavily browed and wan—  
Yonder with timid eye  
Passes the loving John.

On yonder flower-booth raised,  
Falling, the blossoms lean—  
There in the lilies he praised—  
Look! The Nazarene!

# TELEPHONE APPLICATION WILL GO TO CHICAGO AS DELEGATE

## IS CONTINUED

### Matters Will Be Discussed at the Meeting of the Committee of the Whole.

The ordinance granting the Home Telephone Company of Alameda county a franchise to do business in this city came up for consideration last night before the Judiciary Committee of the Council. All the members of the committee, viz., Councilmen Hahn, Aitken, Meese, Bacous and Pendleton were present.

After a short consideration of the subject the matter was continued until next Thursday, when it will come up before the committee of the whole of the Council, several of the Councilmen stating that they had not had time to give attention to the measure and that it would be advisable to have the subject considered by the whole Council and thus save a great deal of time.

#### THE ORDINANCE.

City Clerk Thompson read the application in question, that of William Thomas, for the privilege of maintaining poles, wires, cables, underground conduits and other appliances for the purpose of transmitting conversation by means of electricity or otherwise in this city.

He then read the ordinance proposed for passage granting the franchise, the features of which are as follows:

The term of the franchise is to be fifty years from the date of the granting of the same.

The system is to be operated under the statutes of California and the charter and ordinances of Oakland.

Within four months from the date of the granting of the franchise work on the installation of the system shall be commenced.

Within one year \$250,000, within two years \$550,000, and within three years \$850,000 are to be expended in this city in that work by the company.

The work must be completed within three years after its commencement, under penalty of forfeiture of the franchise.

#### FREE CITY PHONES.

Within six months after the commencement of the operation of the system the company is to supply twenty-five telephones to Oakland and maintain them free of expense to the municipality.

The company after five years is to pay the city annually 2 per cent of its annual gross receipts, an annual report of which by the officers of the company is to be filed with the City Clerk.

Within five days after the granting of the franchise the company is to file a bond in the sum of \$100,000 that it will comply with the provisions of the franchise.

#### AS TO SELLING OUT.

The company shall not sell its privilege to any telephone company now doing business in Oakland without the consent of the city of Oakland. Neither shall it under any consideration enter into any agreement with any person or company now in the telephone business here concerning the rates to be charged or telephone service. This proviso does not prevent the company from making agreements with telephone systems connecting Oakland with other localities or conducting a telephone business outside the city of Oakland.

There are other features which deal with the bidding for the franchise. The ordinance is to go into effect from and after its passage.

Councilman Meese asked if there were anything in the ordinance which prohibited the company from selling out.

#### RESTRICTING SALE.

Judge J. G. North, who appeared for the company said there was and Clerk Thompson read the clause above referred to which prohibits the sale of the privilege to any competing company in Oakland. He also read the clause prohibiting a combination on telephone rates in this city.

Judge North said that that proviso prevented either combination or sale.

Councilman Fitzgerald—Would that stop the sale of the franchise?

Judge North—It would stop the sale to any competing company in this city and that is all that the people of Oakland would want to guard against. We can't do anything without the consent of the Council.

Fitzgerald—But couldn't stockholders sell their stock?

Judge North—That is something which no one can guard against. That is something which cannot be prevented. That could be done if we wanted to do it but we don't want to do it. We have, how-

ever, succeeded in preventing that in Southern California where the local companies wanted to secure control of us and this was done by means of agreements with parties at the time of the purchase of the stock.

Thomas—Since they have started, no independent companies have sold out.

Councilman Bacous—How long is the franchise to run?

Clerk Thompson—Fifty years.

Fitzgerald—Is that the same time in your franchise in other places?

North—Yes, it is the same.

Fitzgerald—No place for a lesser period?

North—No, except where we have an old franchise which has partially expired.

#### WANT TO READ.

Councilman Pendleton said that he had not had time to consider the ordinance and wanted to know whether it would not be advisable to have the matter go over and be considered by all the Councilmen in Committee of the Whole.

North—We are prepared to make a statement tonight or to go before the Committee of the Whole. That will depend upon the committee.

Pendleton—None of us, so far as I know, have had a chance to read the ordinance since it was introduced into the Council, and it might be saving time to have the measure considered by all the Council at once.

North—Your idea would be to have the consideration go over until it could come up before the whole Council. If that is the wish of the committee, we will be pleased to do as they desire, though we would like to have as little delay as possible.

#### LEGALITY OF MEASURE.

Fitzgerald—Has the City Attorney passed upon the ordinance?

City Attorney McElroy—The City Attorney simply passes upon the legality of the ordinance.

Fitzgerald—Is the ordinance legal?

McElroy—It seems in proper form and complies in that regard with the law.

Fitzgerald—Would you fix the rate to be charged for telephones?

McElroy—That is a vexed question. The City Attorney passes upon the law in the case only.

North—That could not be done now, that is to fix the rates, because we do not know what change might be required later.

Thomas—If we should fix a rate at \$5 it would be ill-advised because we do not know what money may be worth 25 years hence. We want to give competition. We have to beat the other people in the rate and we could not do that if the rate were to be fixed now for the whole period.

#### BIG EXPENDITURE.

North—It is our purpose to spend \$850,000 in this city, in establishing this business inside of three years. We know we will get the business. We are willing to do this without getting one contract. We are ready to do it now without a single subscriber. We are ready to go to work at once and that is the best guarantee that we can give.

Fitzgerald—You are seeking a franchise in San Francisco?

Thomas—Yes, we have made an application and have many signatures over there and in other cities also, and will soon be able to supply "long distance."

#### INCORPORATED TWICE.

Fitzgerald—Do you know the company which got a franchise from this Council three years ago, known as the Home Telephone Company?

Thomas—Yes, I know of it. This company has nothing to do with that one. They simply got a franchise as the Home Telephone Company and we incorporated under the same name. But that was because of a mistake of the Secretary of State. We telegraphed him and he replied that that name had not been taken so we incorporated under that name. Then we found that that name had already been taken so we were obliged to incorporate again and did so under the name of the Home Telephone Company of Alameda County. We are all ready to go ahead, gentlemen. We have a force of engineers and material and money on hand and are ready to go ahead at once. We would be glad to have you act as expeditiously as possible, because we are making similar applications in several other places and we like to be at work.

#### PAY FOR PRINTING.

Fitzgerald—You will pay for the printing of the ordinance?

North—Yes, we will pay for the printing of the ordinance.

Thomas—If we get the franchise we will be glad to pay for the printing.

Mr. Meese moved that the ordinance be reported back to the Council with the recommendation that it be referred to the Committee of the Whole of that body and the motion prevailed.

#### CHOLERA CLAIMS TWO MORE VICTIMS.

LEMBURG, Austria, Sept. 1.—Two deaths from cholera have occurred here and several suspected cases are under observation. The deaths occurred in the family of a river boatman, who has been working in the Vistula district of Prussia.

#### DEWEY'S BROTHER DEAD.

BURLINGTON, Vt., Sept. 1.—Charles Dewey, the only surviving brother of General Dewey, is dead at his home at Montpelier, aged 75 years. He was president of the National Life Insurance Company from 1877 to 1900, retiring from business at that time.

G. B. McHALE, who will represent the Carman's Union at the Chicago Convention.

### Elmhurst Motorman Chosen to Represent Union at International Convention.

ELMHURST, September 1.—At a meeting Wednesday evening of the Carman's Union George B. McHale was elected International delegate to represent the Amalgamated Association of Street and Electric Railway Employees of America at its convention at Chicago the latter part of the month.

Mr. McHale has been in the employ of the Oakland Traction Company for many years. He is a motorman on the Hayward line.

#### ENTERTAINED.

Mrs. H. Olson entertained the Hayseed and Pastime Whist club at her residence on Sunnyside street, Wednesday afternoon.

The residence was beautifully decorated and many handsome prizes were given to the guests who held the high-

est scores. The prizes were won by Mrs. A. Barker, first; Miss A. Sparks, second; Mrs. W. Smith, third. A few other prizes were awarded as booby prizes. After the games refreshments were served. The guests present were Mrs. W. Higgins, Mrs. Arlett, Miss Arlett, Mrs. Barker, Mrs. Clayton, Mrs. Jackson, Mrs. Merritt, Mrs. F. Smith, Mrs. K. B. Smith, Mrs. W. Smith, Mrs. R. Tuttle, Mrs. J. R. Ruckstell, Mrs. Silvers, Mrs. Hobart, Mrs. B. Hobart, Mrs. W. F. Lynch, Mrs. Tideman, Miss J. Klepper, Miss Mathews, and Mrs. Higgins.

### RARE MANUSCRIPTS FOR THE UNIVERSITY

### Library at Berkeley Receives Interesting Documents From John H. Carmany.

BERKELEY, Sept. 1.—John H. Carmany has presented to the University library a number of original autograph manuscripts, including poems by Edward Rowland Hill ("A Resting Place"); Bret Harbo ("The Cross of Fortune"); Bayard Taylor ("Notre Dame"); Charles Warren Stoddard ("Flicks of Thistles"); "Sail Ho!"; Benjamin Parke Avery's "Contrast"; Ina D. Coolbrith "Benjamin Parke Avery"; also the complete manuscript of Bret Harbo's "Idyll of Red Gulch."

Mr. Carmany also has given a document which will prove extremely interesting to the historian of California literature. This is a large-size note book, on the left-hand pages of which are pasted the "contents" as printed on the covers of the old Overland Monthly, for the whole serial beginning July, 1859, and ending December, 1875, and on the opposite pages appear the names of the contributors and the sums of money paid to them for their work. This establishes beyond question the authorship of numerous unsigned articles and poems. From the same source there comes into our safe custody a letter-book containing correspondence received by the publishers and editors of the Overland. These, written before the era of typewriters, are in autograph, and mostly refer to the contributions which were offered for publication. Among the 143 letters are some by Bret Harbo, Stoddard, Joaquin Miller, William Alvord (offering financial assistance to the Overland) and William Sharon (dealing same). Prentiss Mulford, Charles Kingsley, canon of Westminster; D. C. Gilman, General W. T. Sherman and Justice Stephen J. Field (relative to Vigilance Committee of 1856), H. H. Bancroft, Bishop W. L. K. Toole, B. B. Russell (painter), and other persons of more or less reputation in the field of authorship.

### Sargeant's Big Four Sewing Machines

### The New Home The Standard The Domestic The Automatic

There is no need to say much about these Sewing Machines, they speak for themselves and as they are in so many homes all over the land their voices must be heard everywhere.

Sargeant guarantees satisfaction no matter what Sewing Machine he sells you; he will not sell you an inferior machine—he cannot afford to, his reputation for honorable dealing is too well known. And the same methods prevail throughout all dealings with this house—renting, repairing and selling Sewing Machine supplies.

It's done by Sargeant, it's done right.

### SAYS PEACE WILL NOT LAST

#### COUNT TOLSTOI GIVES HIS VIEWS ON PORTSMOUTH NEGOTIATIONS.

MOSCOW, Sept. 1.—Count Tolstoi received information Tuesday that peace at Portsmouth was practically assured, according to an intimate friend of the family. Commenting then upon peace as an established fact, Count Tolstoi said: "I am indeed very happy to see the end of this fearful butchery, but it is a great pity that this war will not be the last. It cannot be the last, because nations will fight each other so long as the social system remains unchanged, so long as opposition and threats are considered dogmas of society."

Tolstoi made no comment on the conditions of peace, declaring them to be quite unimportant in comparison with the final results to be attained through the conference.

### ANOTHER FAMOUS Schneider Shoe Sale

The Oakland public is pretty familiar with the full meaning of this announcement. It means that shoes are selling away below their values. It means that special price shoes are good. It means that the shoes are reasonable sorts. All these things go together in a shoe movement at Schneider's. That's why our shoe store was busy as a bee-hive all day yesterday. New, stylish, well-made shoes, for men, women and children, at most decisive savings. Here is word of some new groups today—

Basil Lindsey, Judge William Lindsey, John Q. Black, James Arnold, Dr. William Lucas and several others. They will be sailing Tuesday evening. He will be taking his lunch, several dozen 800-foot fish lines and plenty of bait.

#### NO TOWN FOR HIM.

John D. Rockefeller has "declined with thanks" to allow his name to be used as a handle for the proposed new town on the flat. He sent a telegram to that effect yesterday, but added in a postscript that if anybody wanted money for a town hall, a sewer system or to pave the streets, he was on hand. The telegram came "collect."

#### BRIEFLETS.

Harry Watrous, the seventh street hawker, was the victim of a very painful accident Tuesday evening. He will be laid up a few weeks with a broken foot as the consequence.

He mounted a fractious steed at his barn. The animal reared up and fell back, catching his right foot. Two of the bones of the foot were broken. Dr. Blake was called and did his best to relieve the agony.

Men from the city are already applying for work in the new P. O. shipyards. The company is not yet ready for a force of ship carpenters. A few boiler-makers have been taken on.

The ladies of the Fortnightly Club will entertain at Native Sons' Hall Saturday evening instead of at Maple Hall on next Tuesday.

The Rebel ball at Maple Opera House Tuesday evening was a great success, both in a financial and social way. A large crowd was present and everybody passed an enjoyable evening.

No more will the festive town crowd roam along the streets and alleys of Richmond at her own sweet will. She must stay in her own back-yard or else make content on being interned by Marshall Harry Livingstone or his official deputy, Harry Stephens.

A WIDOW ELUPED WITH HER BOY

Mrs. Evans of Alameda Will Take Steps to Have Marriage of Son and Mrs. Schumacher Annulled.

ALAMEDA, September 1.—Herbert C. Evans, aged 19, and Mrs. Ellen Schumacher, widow of the late William Schumacher, a patrolman of the Alameda Police Department, whose death occurred a half dozen years ago at Los Angeles, were married Wednesday night at St. John's Episcopal church, at the corner of Fifteenth and Valencia streets, San Francisco. Mrs. Charles Evans of 2341 Clinton avenue says the bride is twenty years the senior of her son, that the latter swore falsely that he was 21 in order to secure a marriage license and that he was coerced into a marriage with a woman old enough to be his mother. Mrs. Schumacher, according to Mrs. Evans, is over 39 years of age. The mother of the youthful bridegroom, as soon as she saw the announcement of the marriage license in the morning papers yesterday, engaged Attorney Howard K. James to take action to have the marriage annulled on the ground that the groom was under the legal age and had committed perjury in securing the license, and at the same time announced that she would proceed against the woman who had "eloped with her boy."

Mrs. Schumacher, now Mrs. Evans, is a comely woman, and for some time has lived at 1007 Taylor avenue. "She has been trying to induce my son to go with her for months," said Mrs. Evans, "and on her account he has lost a number of good positions. He was in charge of a newspaper tugboat, bringing papers to this side of the bay in the early morning, until his infatuation for Mrs. Schumacher, which kept him away from his duties at unusual hours, caused him to lose the job. I shall act promptly to have the marriage annulled. This woman was aware of the fact that my son secured pilot's papers by swearing that he was 21, and she has held it over his head that if he tried to get out of the marriage, or if I acted in the matter, he would be liable to arrest for perjury on that account. I am not to be deceived into silence, and I shall lose no time in bringing the matter in the courts."

Mrs. Evans suspected some days ago that an elopement of the ill-assorted couple was planned, and counseled with Attorney Howard K. James, who sent her the following letter to Mrs. Schumacher: "Mrs. Ellen Schumacher, 1007 Taylor avenue, Alameda, Cal: Dear Madam:—I am advised by the parents of Herbert C. Evans, of 2341 Clinton avenue, that they have been given to understand by him that you are using your utmost endeavors to induce the young man to marry you, respectively of the fact that you are twenty years older than he is, and that both of you know that there are other obstacles which would make any marriage between you illegal."

"I am instructed by my clients to advise you that should you succeed either through persuasion or threats, in bringing about what might seem to be a marriage with him, immediate steps will be taken to have it annulled, and an action brought against you."

Despite this warning the widow refused to relinquish the affection of her boyish lover, and the denouement was only hastened by the threat of the attorney. Mrs. Evans is highly incensed at the marriage, and promises developments of a sensational character.

OPIMUM IN ALAMEDA. ALAMEDA, September 1.—It is claimed that the local Chinatown on Railroad avenue has now become the supply depot for Oakland's opium smokers. In Oakland, some time ago, Chief Hodgkins opened a crusade against the smokers of the opium dens which made it hazardous to sell the narcotic in that city. The trade, it is claimed, has now been given to the joints in the local "Walled City," which

PAINFUL PERIODS. AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering, it is not the plan of nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and is menstruation of its terms.

Miss Irene Crosby, of 313 Charlton street, East Savannah, Ga., writes: "Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful menstruation when everything else had failed, and I gladly recommend it to all suffering women."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhea, falling inflammation or ulceration of the uterus, ovarian troubles, "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to good health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by

AERIAL ACTS AT THE CIRCUS

"THE HUMAN RETURN BALL" WILL BE SEEN AT THE BIG SHOW.

Among the many marvelous aerial acts that are this season presented with the Barnum & Bailey Greatest Show on Earth are several deserving of special mention, in consequence of their extraordinary character. There is one where, while the daring artists hang head-downward from the aerial horizontal bars, they throw one of their number forward and backward, catching the human ball first by the feet and then by the hands, then again by one hand, one foot, and around the rhinoceros cages of wild beasts. "The human return ball," and as it takes place in the air far above the heads of the audience is both a thrilling, perilous and daring exploit. Another mysterious performance is when Les Freres Acciotti make their wonderful ride, in which they defy death and the law of gravitation to the amazement and astonishment of the visitors. Another part of this fearful feat is looping-the-loop, and is still more wonderful by a marvelous flight through space over a yawning abyss, the circuit of the loop is finished. And yet another is the death-defying double flight over two wide chasms by the brothers of Acciotti. All these acts are highly thrilling and sensational, as are also the feats of the troupes of aerialists, and the dashing and daring acts by the army of graceful and expert male and female equestrians. The hippodrome races, too, are revelations in style, courage, and the desperate manner in which they are contested. The double manage-ment containing three herds of elephants, droves of camels, double-horned rhinoceros cages of wild beasts, a herd of giraffes and many curious animals in leash, is a very wonderful piece to spend the hour before the performance begins. Here also are male and female vocalists, dancers and musicians, as well as living human curiosities such as the troupe of midgets, giants, etc. The whole mammoth institution will be here on September 11 and 12.

FORESTERS BANQUET Gala Evening is Spent by This Lodge.

PRETTY HOME WEDDING IN ALAMEDA

MRS. HARRY LA JEUNESSEE (NEE LEWIS).

ALAMEDA, September 1.—One of the prettiest simple home weddings of the week took place Wednesday night at 8:30 o'clock, when Miss Ada Lewis, the charming daughter of Mrs. John Lewis of 2521 Central avenue, became the bride of Mr. Harry La Jeunesse, son of Dr. J. A. La Jeunesse of Railroad avenue. Relatives and intimate friends only witnessed the ceremony, which was performed at the Lewis residence by Rev. P. C. Macfarlane, pastor of the First Christian Church.

The parlors were very prettily decorated in honor of the event, and the entrance to the house was gaily decorated with large Japanese lanterns. The bride was attended by her sister, Miss Lily Lewis, while John Lewis acted as groomsmen.

After a wedding supper and congratulations, Mr. and Mrs. La Jeunesse departed for a honeymoon trip, which they are to spend at San Jose and at other points in that vicinity. Upon their return they will reside at 1301 Versailles avenue.

GIRLS OF CHORUS WINNERS

BACK KILL KARE AT BIG ODDS AND CELEBRATE KILLING.  
NEW YORK, Sept. 1.—There was joy unconfined in the "lobster palaces" of Broadway last night, especially in the theater district, over the victory of Kill Kare at Sheephead Bay race track. The chorus girls of one company, whose season just opened on Forty-second street, had more money than they knew what to do with, and some of the principals made a big haul. The girls' capital, from all accounts the coup on Kill Kare was the greatest in many years about New York. The city was backed in many books at 200 to 1 and was hammered down to 60. Between \$50,000 and \$100,000 was taken from the betting ring by the chorus girls. The girls' theatrical manager, "That is how the 'killing' happened to be so generally celebrated on the Blatant last night. The surviving partners of Mr. Hamilton's firm were notified in good season that Kill Kare was ready to make her maiden effort and the words were passed around. There was a good-sized pool made up by members of the chorus and placed in the hands of a commissioner. The principals hurried around the betting ring for themselves and one succeeded in getting down to \$200 to win at almost the top price. The chorus girls' betting commission, representing the stable and a few friends were busy as beavers. Owing to a tremendous plunge on another horse in the race they were able to spread a goodly amount of money around the ring before much thought was given to their own fate. Then the bookmakers were marked very much one-sided and they marked down the price against Kill Kare, many refusing to accept any more bets against her.

Although the filly had never before faced the barrier and was ridden by a comparatively unknown jockey, she jumped away in the lead and won by a close margin from August Belmont's Bivouac. There was a wild demonstration by the lucky ones in the betting ring. The filly reigned for the remainder of the afternoon. It was generally conceded that the price against Kill Kare was the lowest since she was put through by the late George E. Smith (Pittsburg Post) fourteen years ago.

REV. SCOVILLE IS DRAWING CROWDS

The song service preceding the sermon by Evangelist, Scoville, at the First Christian Church last night was of more than usual attractiveness. A male quartet composed of Mr. De Loss Smith, the soloist, Dr. O. S. Dean, W. M. Smith and Wallace Merwin, rendered "Be Ye Reconciled," while De Loss Smith gave two solos, the first, "Open My Eyes that I May See," and "How Sweet the Name of Jesus." By request the choir sang "Christ is King," rendered the previous evening. The words were written by Rev. Scoville and the music by Mr. Smith. These workers have composed a number of the songs in the book used during the evangelist's crusade. The inactivity of the churches, remarking: "If the churches made half the effort that the theaters do to get the boys and girls, they would succeed. The average church is the dampest, darkest, deadliest place in town six days out of the week."

TESTIMONIAL.  
"I am happy to give you my testimonial. Indeed, I do not think I can do enough for the merits of Sanozol. I had been unable to attend to business for a year. I suffered for three years before this. My case had been diagnosed as Syphilis by eminent physicians. I found no relief until I was advised to use Sanozol. I am now perfectly cured, and not even a suspicion of my old trouble remains. I can heartily recommend Sanozol. Lotions to all afflicted with it, and my family will use none but Sanozol soap for the toilet."

# SHAKE-UP OF THE POLICE

CHIEF COLLINS OF CHICAGO MAKES MANY IMPORTANT CHANGES.

CHICAGO, Sept. 1.—In the most sweeping police order issued from department headquarters in years, Chief Collins last night spread consternation and trembling in the police ranks by a general order that affected fifty commanding and subordinate officials of the department.

While no retirements or dismissals marked the edict, the fact that it applied in all but a few cases to high officials was taken as indicating that the order was but a precursor of an even greater upheaval.

The order creates two new lieutenants, two desk sergeants and one patrol sergeant, and shifts six captains, thirteen lieutenants, twelve sergeants and thirteen patrolmen.

The transfers affect almost every precinct where police activity is shown and each district headquarters receives an infusion of new blood.

## CHICAGO WEALTH GREATLY INCREASED

CHICAGO, Sept. 1.—The total assessed valuation of Chicago real estate, as returned last night by the Board of Review for 1935, is \$255,512,132, an increase of \$4,182,536 over the reviewer's figures for the previous year. This means an increase in the last year of \$20,922,450 in Chicago real estate, full cash valuation, which is five times the assessed valuation.

The increase is due mainly to building improvements, and in the opinion of the Board of Review is a notable indication of the city's prosperity, despite industrial troubles.

### DR. CAREY DIES.

BALTIMORE, Sept. 1.—Dr. Henry P. Carey, the eye specialist, is dead here of Bright's disease. Dr. Carey invented the Ophthalmic oscillator in 1899, which marked a new era in scientific eye surgery.

# SHOWS MOTHER PICTURE OF KIDNAPED CHILD

## Strange Sequel of the Case of Rosie Cohen, Stolen Nine Years Ago.

NEW YORK, Sept. 1.—There has been a strange sequel to the mysterious kidnapping, nine years ago, of pretty Rosie Cohen, an East Side girl. The girl's mother lives in Orchard street, and was surprised yesterday by the visit of an unknown man who called the mother to the door, and, after telling her he knew the present whereabouts of the daughter, thrust a recent photograph of the girl into her hands, and with the remark, "She has changed her name; it is no use for you to try to find her," disappeared.

In the winter of 1896 the girl, nearly five years old, was playing on the street in front of her home, when a man was seen to creep up, placed his hand over the child's mouth, caught her up in his arms and fled. The police worked on the case for a long time without success. The mother was heartbroken and gave up hope of ever knowing her child's fate.

When the man visited Mrs. Cohen yesterday she pleaded with him for knowledge of the girl's whereabouts, but he refused.

"She would not be happy here," he said. "She is doing all right and has forgotten you. She has changed her name. Now, just forget her and don't try to find her. It won't do you any good."

The police were at once notified and are inclined to believe that the man, having found the mother, intends demanding a ransom.

# METAL WORKERS STRIKE

## STRIKE BREAKERS ORGANIZE

MORE THAN TWO THOUSAND MEN DEMAND INCREASE OF WAGES.

NEW YORK, Sept. 1.—A strike of the sheet metal workers in this district was called last night by the Amalgamated Sheet Metal Workers' Union. About 2,300 members attended the meeting, and the call for the strike was almost unanimous.

The strike will affect about 200 buildings which are in course of construction, and about 300 shops in which the metal workers are employed. The men demand an advance of fifty cents a day. Their wages now are \$4 a day. They claim that about a year ago they entered into an agreement whereby they were to receive the raise last January.

The men did not get the promised increase, however, and several months ago they notified the employers that if the advance was not forthcoming there would be a strike.

CHICAGO, Sept. 1.—Believing that their services will soon be in demand again, owing to the printers' strike, special deputy sheriffs and policemen held a secret meeting yesterday and organized a strike-breakers' union.

A scale of wages of not less than \$5 a day, and \$6 if it can be secured, was fixed.

Charles E. Turk, a discharged policeman, was elected president. Then each of the 119 charter members paid twenty-five cents for expenses. Turk produced a book and said that every one present must sign it, the idea being that the first man that signed was to get the first position. A large number fell over each other in their haste to sign the book.

# HOLDS BACK HIS FELICITATION

## JAPANESE EMPEROR DELAYS HIS MESSAGE TO THE PEACE MAKERS.

PORTSMOUTH, N. H., Sept. 1.—When asked whether Baron Komura and Mr. Takahira had received congratulations from their Emperor at the conclusion of peace, a member of the Japanese mission laughingly said:

"You should remember our Emperor is not premature in his praise. When the treaty is signed his Majesty will be the first to congratulate his negotiators. Togo was not congratulated until Tsushima was an accomplished fact."

Occasionally a woman likes to have her husband say "mean things" to her because it feels so good when it quits hurting.

# COUNCIL COMMITTEES IN SESSION

## Many Matters of Interest to the Tax Payers Are Discussed and Passed Upon.

The committees of the City Council met in the Council Chambers and disposed of what routine there was before the committee in favor of the amendment. After a brief discussion of the ordinance Councilman Aitken recommended that the proposed measure be filed and taken up by the Council. The action of the committee practically insures the passage of the proposed ordinance.

It is probable that the numerous cases of Socialist orators who are to appear in the police court on charges of violating the present ordinance will be dropped. In event of the passage of the new ordinance it will be necessary for all persons except the speakers of political parties to obtain permission in writing from two of the following officers: The Mayor, the Chief of Police and the President of the City Council.

The ordinance regulating the digging up of streets and sidewalks and requiring the diggers to deposit sufficient money to pay the cost of refilling the same was recommended.

### STREET COMMITTEE.

The Street Committee recommended that E. P. Flint be granted permission to build an 8-inch sewer in Walsworth avenue.

### TO BRING SUIT.

The committee recommended that the Council direct City Attorney McElroy to bring suit against the E. B. L. Stone Company to have the title to a certain winding road from East Twenty-second street to East Twenty-first street and Sixteenth street determined. It is claimed by residents in the vicinity that the road held by E. B. & A. L. Stone Company is an extension of Sixteenth street and is the property of the city.

City Attorney McElroy will prepare the necessary papers at once.

It is alleged that the road has been fenced in and otherwise used as private property for a number of years.

The petition of the Blake & Bilger Company to grade, curb and macadamize Wheeler street between Sixty-fifth and Sixty-sixth street was recommended.

It was recommended that the Blake & Bilger Company be granted permission to grade, curb and macadamize Montgomery street between Forty-first and Howard street.

The committee recommended that the Ransome Construction Company be granted permission to grade, curb and macadamize Summer street from its eastern terminus to Emeryville.

It was recommended that the same company be granted permission to sewer Twelfth street from Harrison to Madison street.

### OVERRULE PROTEST.

The committee recommended that the protest against curbing, macadamizing Shattuck avenue be overruled and that the work be done.

The petition for a cement sidewalk on Cambridge street from Lowell street was recommended.

It was recommended that East Twenty-third street be graded, curbed and macadamized from eastern boundary line of the city.

It was recommended that Sixty-first street be extended between Paradise Park Tract and Lowell street.

The committee recommended that Eleventh street be paved between Franklin and Webster street.

It was recommended that a five-foot sidewalk be laid on Lowell street.

The committee recommended that Hopkins street be extended westerly to Pleasant Valley to give the territory north of Lake Merritt a cross street.

### WILL HAVE METALLIC SIGNS.

It was recommended that the Council authorize the Board of Public Works to advertise for bids for placing metallic signs on all streets. The initiative in the matter of placing signs was taken by the Board of Trade.

It was deemed advisable to have the names of the streets made in metal as they are less destructible than other signs.

### TO OIL STREETS.

It was recommended by the committee that the Board of Works be authorized to advertise for bids for oiling the macadamized streets of the city. This action was taken in accordance with the suggestion of Mayor Mott.

The Superintendent of Streets was authorized to investigate and report on the unauthorized excavations in Indian Gulch.

### SAN PABLO OFF GRADE.

City Engineer Turner called the attention of the committee to the fact that the grade on San Pablo avenue did not conform to the contemplated improvement. It was recommended that a new ordinance re-establishing the grade be passed.

### LIQUOR LICENSES.

The following liquor licenses were recommended: Kijino & Stypelich, 842 Broadway; William Wilkins, 1802 Seventh street; Chas. Pitt, 4401 Piedmont avenue; D. Knabe, 473 Eleventh street; L. B. Morris, 1057 Broadway; Ernest Street for one week; W. H. Campbell Co., 302 Twelfth street.

### CHURCH WINS ON PROTEST.

The application of B. and M. Cianciarulo for a license at 340 Telegraph avenue was recommended by the committee on the understanding that the petition would be withdrawn on next Tuesday evening. The congregation of the First Baptist church entered a protest against the proposed saloon.

The application of Cleek & Volopda, 48 San Pablo avenue, was laid over for one week.

### DENY LICENSE.

It was recommended that the application of Rigger & Gasperdona, 4864 Telegraph avenue, be denied.

### LAY ORDINANCE OVER.

The ordinance appropriating \$50,000 for dredging Lake Merritt and also fixing the boundary lines of the lake was laid over for one week.

# WILL HOLD A MEET AT RENO

RENO, Sept. 1.—Reorganization of the Reno Jockey Club was completed at a meeting held here tonight. As a result plans have been completed to hold a six-day's meet in Reno beginning September 11th.

Five thousands dollars in purses have been arranged for. From three to six races will be held every day during the meet. Horses now in the hands of the State Fair meeting at Sacramento will be brought here, and assurances have been received from horse owners in other parts of California, as well as Nevada, that they will send stock. Alex Dromack, a noted horse fancier, was elected director-in-chief and the Hon. N. W. Roff, State Senator from Washoe county was selected Secretary at the meeting.

**CARTER'S LITTLE LIVER PILLS.**

# CURE SICK HEAD ACHE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Flatulence, Green Bile, Dizziness, Nervousness, Stomach Distress, etc. While their most remarkable success has been shown in curing

Headache, Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

Ache they would be almost priceless to those who suffer from this distressing complaint, but fortunately their great benefit is that they cure the cause of the trouble, and thus prevent its return. They are easily taken, and do not grip or purge, but by their gentle action please all who use them.

**CARTER'S MEDICINE CO., NEW YORK**

**DIVIDEND NOTICE.**  
Notice is hereby given that dividend number one of two cents per share is hereby declared on all the capital stock of the Alameda Realty Co., payable on and after August 28, 1935, at the office of the company, room 276, Bacon Block, Oakland, California.

By order of the Board of Directors of Alameda Realty Company.  
Dated, Oakland, Cal., August 24, 1935.  
By VERNON WILSON, Secretary.

# MANY MAYORS ARE TO MEET

CHICAGO, Sept. 1.—Plans for a gigantic municipal convention and exhibition of civic accomplishments in Chicago next year are being made by the city officials and the commercial associations. An effort is being made to capture the gatherings of the different municipal societies in the United States and Canada for a joint congress next year, which will rival the recent municipal congress in Dresden. Hugo Grosser, city statistician, will leave for Montreal tonight to urge the American Society of Municipal Improvements to hold its next annual meeting in Chicago. The Mayor of every city in the United States will be invited to the convention.

### MORE JAPANESE STEAMERS.

GLASGOW, Sept. 1.—The Nippon Yusen Kaisha (Japanese Steamship Company), through the Japanese consul here, is placing contracts for eighteen liners with Clyde ship-building firms.
